Projects

Apple iPhone- 15
Goal: Learn Frontend Technologies

Live Project Link

- Created a pixel-perfect replica of the Apple iPhone 15 Pro promotional page, ensuring a visually appealing and responsive design that mirrors Apple's high standards for aesthetic and usability.
- Utilized GSAP and Three.js to implement dynamic and engaging animations, including 3D product showcases and smooth transitions, enhancing the user experience and demonstrating proficiency in modern web animation libraries.
- Designed and implemented responsive navigation and interactive elements using modern frontend technologies, ensuring a seamless user experience across various devices and screen sizes.
- React, JavaScript, GSAP, Three.js, Tailwind , CSS, HTML, Vercel

My Portfolio Website
Goal: Make a Real-World Project

Live Project Link

- Designed and developed a personal portfolio website to showcase a diverse range of web development projects and technical skills, demonstrating proficiency in creating engaging and user-friendly interfaces.
- Implemented interactive 3D visual elements and animations using Three.js and GSAP to enhance the visual appeal and user experience of the portfolio, creating a dynamic and modern look.
- Optimized the website for performance and responsiveness across various devices and screen sizes, ensuring fast load times and a seamless user experience for visitors on both desktop and mobile platforms.
- Nextjs14, Reactjs, TypesScript, GSAP, Tailwind , Three.js, Framer Motion ,CSS, HTML, Vercel

Braiwave AI SAAS
Goal: Build Frontend Webpages

Live Project Link

- Designed and developed a high-converting landing page for an AI SaaS product, focusing on effectively communicating the product's value proposition and features to potential customers.
- Optimized the landing page for fast load times and responsiveness across various devices and screen sizes, ensuring a seamless and professional presentation of the SaaS product.
- React, JavaScript, Tailwind, CSS, HTML, Vercel

MediumLike Blog
Goal: Build a Full-Stack App

Live Project Link

- Developed a full-stack Medium-like blog application using Next.js, implemented post creation.
- Designed and built a user-friendly and responsive blog interface with dynamic content rendering and real-time updates, ensuring an engaging experience for both readers and authors across various devices and screen sizes.
- Nextjs 14, Reactjs, TypesScript, PostgreSQL , VercelDB , Tailwind , CSS, HTML, Vercel

Soft Skills

- Leadership Skills
- Problem-Solving Abilities
- Teamwork and Collaboration
- Adaptability
- Proficient Speaking Skills

- Creativity
- Customer Service Orientation
- Critical Thinking
- Conflict Resolution
- Empathy
